2018-2019 Season Outlook: The Colgate Raiders have a young team this season with a number of key returning players looking to provide leadership to this young team. The Raiders have a young and formidable pitching staff that looks to be highlighted by strong freshman performance this season. With 4 new Freshman infielders the team looks to have a fresh look on the infield. The team is focused on solid defense and preventing errors to give young pitchers confidence that the infield has their back. The Raiders are determined to produce many quality at bats that will let their prowess on the basepaths take over. Colgate has a number of very fast contact hitters that look to play smallball and run all over their opponents. This team looks to be in formidable contention for a playoff spot for years to come as the underclassman core continues to develop.

Manager Quote: Player/Manager DJ Griffin notes "This team has made great strides over the past few months to come together as a cohesive unit that will really fight for one another. The passion each player shows helps them to build off one another as they strive to compete day in and day out. The Freshmen class is very large and is eager to prove themselves against new competition. There is a lot of fight in this team, everyone knows we have not been as successful as we have hoped in previous years and there is great desire to change the future. The team showed great promise against Hobart and despite playing few games this fall we hope to carry the momentum of that big win into spring play. We know the large amount of away games will not be easy for us but we hope to prove ourselves as major playoff contenders not only this year but for years to come."
